

If I upgrade from a general to a competitor membership will I receive all my points?

Article Number: 180 | Last Updated: Thu, Aug 26, 2021 10:10 AM

Cross Country is the only sport that allows individuals holding a non-competitor membership to compete in events that have points. If an athlete has a non-competitor membership and upgrades to competitor, the athlete's results for all events will be included when their points are figured on the next list after the upgrade is completed. However, the prior results must have been submitted under the proper U.S. Ski & Snowboard number by the event organizer.
